

## RESULTS OF SUN IN SECOND HOUSE (ARYAMAAN)

Dear friends,

Hearty welcome to “planetsandyou.in” astrology website. Today’s topic is Sun in second house and its impact on the individuals who have such a placement of Sun. I would like to tell you, inter alia, about a lesser known concept of Sun in second house or in the sign of “Taurus” which is the second sign of natural Zodiac. I learnt this topic from “Jaimini Upadesa Sutram” of Sri Sanjay Rath, a renowned astrologer from the school of Sri Achyutananda dasa tradition of Orissa and a great teacher of Vedic or Indian astrology.

Sun has 12 distinct forms of manifestation called “Dwadasa Adityas”. These Adityas are twelve sons of Rishi Kashyapa and his wife Aditi, Hence they are called Adityas. When Sun is in second house of a natal horoscope of an individual or in the sign of “Taurus”, i.e. the second house of natural Zodiac, that form of manifestation is called “Aaryamaan”.

**Here one thing is to be noted. Only for “Mesha lagna” the houses of personal chart and natural zodiac match. For all other lagnas, there will be mismatch. In such cases, the manifestation of Sun in the personal chart applies for his self and the manifestation of Sun as per natural zodiac is his public image, i.e. as seen by others.**

This “Aaryamaan” is the chief of manes (pitru devatas). This form of Aditya rules the second house and “Taurus” sign of the natural zodiac. “Aryamaan” form of Aditya makes the native noble and generous. The fourth house from Sun is called Abhijit Rasi and is a divine blessing of Sri Maha Vishnu in every chart. When Sun is placed in second house, the Abhijit Rasi becomes the fifth house which rules children or progeny. **Aaryamaan, being the chief of manes or pitru devatas blesses the succeeding generations of the lineage.** Some examples are given below.

In the natal chart of Pandit Motilal Nehru, the ascendant is Pisces and he has Sun, exalted in the second house. Thus the Abhijit rasi is fifth house of progeny and the divine blessings are so abundant that successive generations of his family became Prime Ministers of India i.e. Mr.Jawahar Lal Nehru, Mrs. Indira Gandhi, Mr.Rajiv Gandhi and even the Spouse and Children of Rajeev Gandhi are powerful political personalities.

In the natal chart of Her Highness Queen Victoria, Sun is placed in Taurus, the second house of the natural Zodiac. She was very generous and noble due to this position of Sun. Also “Aaryamaan ” Aditya blessed her with illustrious lineage. She was queen of England for 63 years and 216 days and she had nine children. Most of them were married into Royal families of Europe and became rulers. Her children and grandchildren also became sovereigns. The blessing of Aryamaan Sun is clearly evident.

Now let us examine some of the general traits of Sun in second house, from classical texts.
